## LEGISLATIVE UPDATE

Senator Joseph Mosely introduced a technologist certification bill in the Missouri Senate January 18th. In your letters and calls to Senators, you should refer to Senate Bill 671. The bill has been assigned to the Senate Public Health and Welfare Committee chaired by J.B. "Jet" Banks. Senator Banks' office is Room 319 in the Capitol, Jefferson City, MO. 65101. The House version of the bill was introduced January 26th by Carole Roper Park as H.B. 1469. Committee assignment has not yet been made in the House.

Please refer to these bill numbers when you write to your senator, representative, Governor, and all other parties. The addresses may be found on the back of this newsletter.

Hilda Chaski of the Division of Epidemiology and Environmental Health is acting as the Department of Health's liaison regarding the bill. She has worked with us before and is knowledgeable and supportive.

We have a need for anecdotes and horror stories about untrained operators of radiation equipment. These seem to have MORE impact with legislators than scientific data. If you have any anecdotes, questions or comments, please call or write.

*6. The design should represent how the actual T-shirt would appear with logo(s) and drawing(s) in their exact location. If both the front and back of the shirt is intended to have designs, then two sheets of paper, one for the front design and one for the back,*

*should be used with front and back clearly labeled.*

*7. The name(s) of the student(s) and the name of the program the student(s) attend should not appear on the paper containing the design. Each entry will be assigned a number so that names and programs will not be known to the judges.*
